FOR IMMEDIATE RELEASE

From: **Fred Sitter, Marketing Communications Director**

Duro-Last® Employee Voted as President-Elect For The Single Ply Roofing Industry

Saginaw, Michigan – February 17, 2009 – Al Janni, Engineering Services Manager at Duro-Last Roofing, Inc., has been elected by the Single Ply Roofing Industry (SPRI) Nominating Committee to serve as the President-Elect for the 2009-2010 term, which will be followed by his Presidency for the 2010-2011 term.

SPRI is a leading trade association representing suppliers of flexible sheet membrane and a wide variety of other components used in commercial roofing systems. Delegates from member companies work together through SPRI on a broad range of projects, such as code issues and the development of standards that benefit the roofing community as a whole.

Janni previously served as the SPRI Treasurer (2008-2009 term) and sat as the Chairperson for the Technical Committee (2007-2008 term).

As President, Janni will chair all board meetings as well as lead the SPRI Executive Committee, which handles issues that need to be promptly addressed. He will also attend industry summit meetings and provide support to all committee chairs as needed.

“I’m privileged to serve as President-Elect for such a diversified trade organization,” said Janni. “SPRI continues to lead the commercial roofing industry in the development of standards, especially when it comes to emerging technologies such as vegetative and solar roofing systems.

Janni has been affiliated with Duro-Last for more than 29 years and has been instrumental in setting up all the Duro-Last facilities throughout the country, overseeing all new building projects for the company.

*With corporate headquarters and a manufacturing facility in Saginaw, Michigan as well as other manufacturing facilities in Grants Pass, Oregon; Jackson, Mississippi; and Sigourney, Iowa, the Duro-Last roofing system has become known as the “World’s Best Roof”®. Since 1978, Duro-Last Roofing, Inc. has manufactured a custom-fabricated, reinforced, thermoplastic single-ply roofing system that is ideal for any flat or low-sloped commercial or industrial building. Energy-efficient and extremely durable, the Duro-Last roofing system is also leak-proof, virtually maintenance-free and resistant to chemicals, fire, punctures, and high winds.
