

PRODUCT DATA SHEET

DURO-LAST 2-INCH DRAIN ADAPTER

Description:

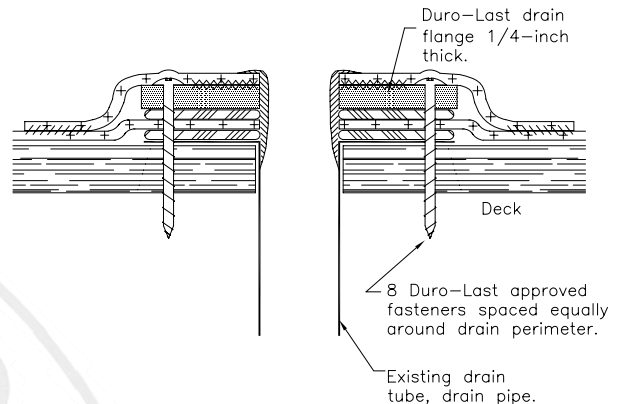

Duro-Last® Patented Pre-fabricated 2-inch (.05 m) Drain Adapters (available in white, gray and tan colors) are fabricated from a high tenacity low shrink weft inserted Duro-Last® thermoplastic membrane and a 1/4-inch (6.35 mm) compression ring made from recycled membrane. Duro-Last® 2-inch Drain Adapters may be used for circular or small rectangular roof drains and are useful in reroof applications. 2-inch (.05 m) Drain Adapters are manufactured from the Duro-Last® roofing membrane and shall be furnished by Duro-Last®, Inc.

Installation:

The Duro-Last® prefabricated drain adapter shall be heat-welded (hot-air) to the field membrane. Drain adapters are not to be used on drains larger than 2-inches (.05 m) in diameter. 8 fasteners spaced equally around the drain adapter are to be used to secure the 1/4-inch (6.35 mm) thick flange, through field membrane and sealant, to the deck (see detail 2050).

Note: This detail cannot be used on drains larger than 2-inches in diameter.

Note: This detail not to be used on drains larger than 2-inches in diameter.
